

NIOSTAR®

NIOSTAR NETWORK CABLE U/UTP CAT6

FEATURES:

Higher Speeds: U/UTP Cat6 cables support transfer rates of up to 1 Gbps and up to 10 Gbps at shorter distances, ensuring fast and efficient data transmission.

Enhanced Bandwidth: Cat6 offers greater bandwidth than Cat5e, allowing multiple simultaneous connections and smooth data transmission.

Suitable for Long Distances: Cat6 cables can transfer data over longer distances than Cat5e cables without degrading signal quality.

Future-proofing: U/UTP Cat6 cables are designed to meet current and future networking requirements, making them a sustainable investment.

Smoother Streaming: Ideal for multimedia applications, including 4K videos, online gaming and video editing, thanks to faster speeds and better performance.

Cable type: CAT6

AWG Value: 24/7

Guide: CCA

Connectors: RJ45

Available lengths:

0.5m

1m

2m
